

Victorian details create just the right balance between the serene formality of this mid-19th century estate farmhouse and the casual hospitality of its 'young professional' new owners. Dramatic, but carefully blended color add warmth

and movement to this large space so that the eye is never bored. Details, too numerous to mention, are used with finesse and reserve so that one never overpowers the next, a gracious and highly functional kitchen.

SPECIAL DESIGN FEATURES: The "cooking hearth" has its own prep space with sink and refrigerator drawers; a breakfast bar/ serving hutch makes a smooth transition into the adjoining breakfast room; a pair of refrigerators are disguised as wardrobes; a sunny clean-up sink has two dishwashers; and a multi-functional butler's pantry is located on far wall.

PRODUCTS USED: Premier cabinetry with multiple, antiqued finishes; Sub-Zero refrigerators and refrigerator drawers; Viking range; Miele dishwashers; Franke stainless steel sinks; Concinnity pewter faucets; Dakota Mahogany granite countertops; hand-painted tile "tapestry"; porcelain tile flooring.

LOIS KENNEDY

Lois Kennedy, CKD, founded her own firm in 1990 out of a desire to provide a more specialized service to her clients. Her reputation for thoughtful and creative design concepts, complemented by her thorough execution of details, won her a following of delighted clients.

In addition, her ability to understand the particular concerns of the design community has earned her the respect of the architects and designers who rely on her as a valuable resource. Lois' formal training is in both architecture and interior design, with a degree in Fine Arts from the University of Maryland.
